Any time you capture animals at the water drinking can be a great image.

This image has many great effects in it. The detail on the animals, looking at the animals low in the water, the reflection is perfect , the lighting, the background and the technique to make it an evening image.

Comb Crested Jacana

2nd Place

Nigel Sethack

Orange Camera Club Inc.

Outstanding capture mother and child both sharp excellent detail , good lighting walking on the baby leaps , its background.

Grebe Family

3rd Place

Nigel Sethack

Orange Camera Club Inc.

A force to be reckoned with Nigel and birds , a second outstanding capture of great lighting, a sharp image with lots of detail, the composition mother with a fish teaching and feeding her young .

All these images are of high quality that can win in an open or nature competition - Judge Alan Hitchell

Great macro image sharp and excellent detail. I like the composition not showing all of the butterfly but showing us the head and body.

Buffalo up Close

A close up image with great detail, a very strong image sharp with excellent lighting. I would have liked to see it in a vertical image showing a little more of the buffalo .

The Glare

One looking straight at us and one looking away is perfect as they do not compete with each other . The face just jumped out at us. I am very impressed at the subjects and the quality macro images .

A beautiful girl with a beautiful smile. Both images are very good. The arrangement of images is excellent. It makes the image look great, which others will copy in future competitions.

The composition is excellent, the subject and the painting with a very good background, a lovely image and a great composition. To me it does not seem to be correct, the Jan Mann I know is a much younger woman.

The subject of People expands the range of ideas and images for this section. I think it is better than a portrait section - Judge Alan Hitchell

Cudgegong Camera Club

An excellent name was what I saw in the image. The look and the wings makes this image great colour and detail.

The nature section was a great joy to view and judge as was all of the images entered in 2023.

I am not sure if this is sport action but if you ask the crocodiles they would say yes. A very good image about life. We may say it is sad but then look in a butcher's shop . Lighting is very good and makes a great image a excellent capture .

The Slider

2nd Place

Colin Boyd

Cudgegong Camera Club

A very good action image the mud he is spraying up and the mud on him lifts this image. His speed and slide is the strong point in the image

The Steer Wrestler

3rd Place

Colin Boyd

Cudgegong Camera Club

The face and the dirt he is digging into tells it all with a little help from the animal who is not looking happy . With perfect lighting every bit of dirt helps tell the story .

Telling the story is part of the photography. The story this camera could tell about a 1902 Kodak found in 1919 did the owner go to war? The image is very good and has good detail.

Still life is not easy, you must have a gift to be able to achieve good results and a mind that thinks still life.

It has that look of fun. Two of the most important things in a creative image is a creative mind ( which few have) and your skill with the technique you use.
