Narrandera Camera Club		38	7

Within this section all clubs have some excellent images and it is most enjoyable to view the high standard. The secret to winning is to maintain a level of quality across all ten images . This is evident in the winners.

Narromine

A high standard across all images applying equally to all images presented by Narromine. I enjoyed the variety of images and the quality.

Young

Comments given to Narromine also show in this club the points are close and could amount to just two images gaining an extra point.

Cudgegong

Missing second place by one point can come down to one image dropping a point and maybe the judge being more kind on the day but again the high standard of images presented was very good.

Three strong clubs next year might be in the reverse.

I always feel sad for the swimmer, who fails by a millisecond for gold. It's ok to miss by a second I think but a millisecond is heartbreaking.

To the clubs who came in at the bottom your standard was good the answer is a couple of images that were not strong enough against the competition that is easy to change for 2024

It's important to make sure your club members give you their best work, not their second best.
